12 June 1956

MEMORANDUM FOR: Director of Personnel

SUBJECT : Revised Table of Organization
Project AQUATONE

25X1

REFERENCE : [] dated 17 April 1956, Same Subject

1. The deployment of Base "A" has pointed up personnel shortages in the field as well as headquarters and has forced us to make another re-appraisal of our Table of Organization. Our determined effort to keep personnel requirements at a minimum and still permit operational efficiency has, in each instance, required demonstrated work loads to dictate the need for the additions requested. In order to make proper assignment of personnel to Base "C" we are requesting the move of positions from Project Cadre.

2. The changes and additions were brought to the Deputy Director (Support) on 8 June 1956 and received his approval. We are submitting these to you with the request that necessary amendments be made to the Official Table of Organization for the Project as revised by your office on 26 April 1956, Control Number 54:

a) Control Center:

Position 8444 to be changed from Military to Civilian Staff Employee, Intelligence Officer (Operations), GS-14 on unvouchered funds.
